Asian Pear Pollination Chart

Variety Selected / Pollen Source	Ari Rang	Chojuro	Hosui	Kosui/Old World	Nijisseniki/20th Century	Shinglo	Shinko	Shinseiki/New Century	Ubilean - European
Ari Rang	X								
Chojuro		X							
Hosui			X						
Kosui/Old World				X					
Nijisseiki/20th Century					X				
Shinglo						X			
Shinko							X		
Shinseiki/New Century								X	
Ubilean - Eurpoean									X

NOTE:

Asian pear trees tend to overbear. Thin fruit to one pear per cluster to have large fruit.
The latest blooming Asian pears will cross-pollinate with early blooming European pears.
Most Asian pears are self-fertile.
You will have a better crop of fruit if more than one tree of another variety is used.

DIRECTIONS for USE:

1. **Select a cultivar you are interested in growing from the left hand column.**
2. **Check across the chart; the unmarked boxes will be a reliable pollinizer for the cultivar you have chosen.**
