Rescue																X			
Shinko																	X		
Shinseiki																			
Uibileen																			X

NOTE:

Some early blooming European pears will cross pollinate with late blooming Asian pears.

Bees generally are not as attracted to pear blossoms as they are to apple blossoms.

We recommend to help with pollinization mason bees are ideal addition to your garden as it will increase production of all fruits and vegetables.

DIRECTIONS for USE:

1. Select a cultivar you are interested in growing from the left hand column.
2. Check across the chart; the unmarked boxes will be a reliable pollinizer for the cultivar you have chosen.
